W9YT

were operated for two weeks in late July and early August, 1973, from the two sites of the National Scout Jamboree, sponsored by the Boy Scouts of America. During the course of the Jamboree, over 100,000 participants had the opportunity to see and hear amateur radio at our special-events stations. Hundreds of licensed Scouts operated the stations, and a full-time staff was on hand at each location to supervise and to answer questions (as well as to do some operating themselves!).

Our special thanks to the American Radio Relay League, Cornell-Dubilier, Hallicrafters, Heath, Henry Radio, Ten-Tec, Times Wire & Cable, and Yaesu Musen USA for helping us to assemble first-class stations at each site. For most of the Jamboree, three rigs were in simultaneous operation at each location!

Date	GMT	RST	MHz	2x
5 ~~July~~ August 1973	0840	59	3.5 7 (14) 21 28	(SSB) CW

Thanks for the QSO! Please QSL to KJ3BSA or KJ7BSA, c/o ARRL, 225 Main St., Newington, CT 06111 USA.
